

Extrusion, Low Profile (6690) and Diffuser (6695)

City Theatrical's low profile aluminum extrusion paired with our diffuser is ideal for use with our QolorFLEX® LED Tape and numerous LED tape brands. With the low-profile extrusion this is great for our lower and medium power LED tapes, such as RGB, RGBA, RGBW, and RGBI.

Features

- Ultra-thin aluminum extrusion profile for both recessed and surface mount LED lighting projects
- 12.2mm inner width to accommodate all kinds of 8-10mm LED strip lights
- Oyster white cover provide a well diffused light that is comparable to neon effect, great for decorative and accent lighting for any setting
- Rigidly build aluminum material, heat dissipation, providing great protection for delicate LED strips
